INVITATION

Dear Orhan Ardahanli

In view of your professional achievements and contribution to the design field, the College of Fine Arts, University of Baghdad (Republic of Iraq) - would be honoured to invite you to participate in the "Radicalization Leading to Terrorism" international poster exhibition.

Radicalization is not only religious, but it can be intellectual, scientific, cultural, political, etc...
Religious radicalization is the worst and leads to terrorism, and religion in general is against radicalization.
How can radicalization be prevented? How do we create awareness? Is it only by education? Are there other means?
